| 29. animate | 59. beforehand | 89. buffered |
| 30. anklebone | 60. behavior | 90. buffoonery |

Words that can be spelled with both a capital letter or a lowercase letter are shown with the capital letter in parentheses. For example, #84 is “braille (B)”. This means you can write Braille or braille. Words with multiple allowable spellings are separated by commas. Words with particular spellings based on their definition show the meaning of the word in parentheses. For example, #442 is “lynx (cat)”. This shows that “lynx” is the correct spelling, even though another word, links, sounds the same.
